

All the Insects in the World

David Opie

Peter Pauper Press (Nov 22, 2022)

Hardcover \$16.99 (32pp)

978-1-4413-3558-6

Marveling at Earth's tiny creatures who evolved over millions of years, this informative picture book shrinks its perspective down to penny-size and traipses through the world of insects—some of whom crawl across the dirt; some of whom command the skies, carrying pollen far and wide. Its illustrations are abuzz with colors and teeming with a variety of insect life, from tiny fairy wasps to moths whose wings stretch as wide as a bird's. Budding entomologists and other curious readers will be enthralled.

MICHELLE ANNE SCHINGLER (November / December 2022)
